

Over The Counter Medicine (OTC)

Most essential and routine generic over-the-counter (OTC) medications are a covered benefit. Virginia Premier Health Plan covers the following OTC drugs and supplies when they are prescribed in writing by a participating provider.

NOTE: OTC medications are not a covered benefit for FAMIS members, except the following: Omeprazole, Loratadine, Cetirizine, Ketotifen and Permethrin.

The following is a list of the most commonly prescribed covered over the counter drugs. It represents an abbreviated version of the full drug list (formulary). The list is not all-inclusive.
