

Provider Update

Medicare Part D Vaccine and Administration (Injection) Claim Form

Summary:

Providers who administer certain vaccines to their Medicare patients may receive payment under the Medicare Prescription Drug (Part D) program. Medicare Part B covers most of the vaccines that Medicare patients need. However, vaccines not covered under Part B are generally covered under Part D. Please consult the formulary for more information on coverage of specific vaccines.

What does this mean to you?

Providers seeking reimbursement of covered Part D vaccines and their administration (injection) should **complete the VPCC Medicare Part D Vaccine and Administration Claim Form** found on VAPremier.com.

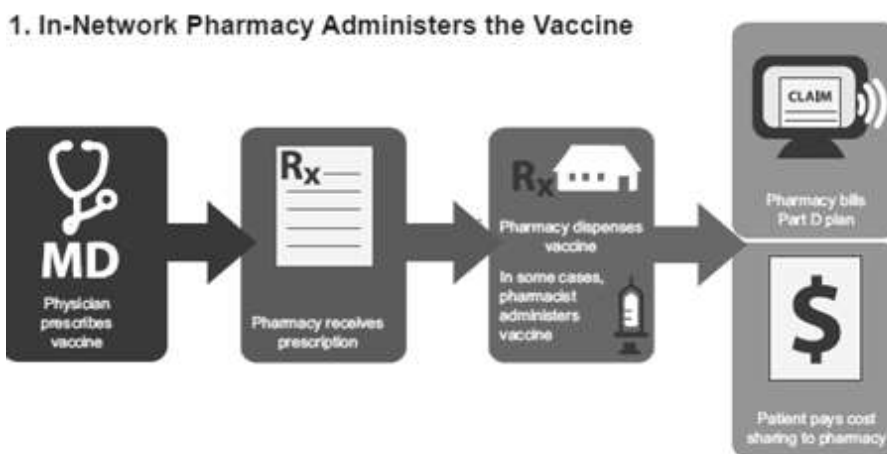

COMPLETED FORMS CAN BE FAXED TO: EnvisionRxOptions at 330-888-6015

Note: Please use the claim form for the following codes: 90620, 90649, 90675, 90700, 90702, 90707, 90714, 90715, 90716, 90734 and 90736.

Access options for Virginia Premier CompleteCare:

1. In-Network Pharmacy Administers the Vaccine

Patients receive a prescription from the physician and the vaccine is administered by a certified pharmacist at a local, in-network pharmacy (unless prohibited by law). The pharmacy bills Virginia Premier CompleteCare, and the patient pays the pharmacy any required prescription copay amount.

2. In-Network Physician Administers the Vaccine (Reimbursement Form to be Submitted by Physician)

Physician obtains vaccine and administers it to the patient. In this case, the physician would initially be responsible for cost(s) associated with obtaining and administering the vaccine. The physician would then submit a claim for reimbursement of covered Part D vaccines and their administration.

If you have any questions, please contact Provider Services. We are available Monday through Friday from 8:00 a.m. to 5:00 p.m. at 804-819-5151 or Toll-free 800-727-7536.
