<Virginia Premier CompleteCare> | **<2016>** Provider and Pharmacy Directory

- <Virginia Premier CompleteCare (Medicare-Medicaid Plan), a Commonwealth Coordinated Care Plan,> is a health plan that contracts with both Medicare and the Virginia Department of Medical Assistance Services to provide benefits of both programs to enrollees.
- The List of Covered Drugs and/or pharmacy and provider networks may change throughout the year. We will send you a notice before we make a change that affects you.
- Benefits and/or co-payments may change on January 1 of each year.
- This Directory lists health care professionals (such as doctors, nurse practitioners, and psychologists), facilities (such as hospitals or clinics), and support providers (such as Adult Day Health and Home Health providers) that you may see as a <Virginia Premier CompleteCare> member. We also list the pharmacies that you may use to get your prescription drugs.
- We will refer to these groups as “network providers” in this Directory. These providers signed a contract with us to provide you services. This is a list of <Virginia Premier CompleteCare>’s network providers for

Providers

Getting started in <Virginia Premier CompleteCare>

This section explains key terms you'll see in our Provider and Pharmacy Directory.

- **Providers** are health care professionals and support providers such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, long-term services and supports, supplies, prescription drugs, equipment and other services.
    - The term *providers* also includes facilities such as hospitals, clinics, and other places that provide medical services, medical equipment, and long-term services and supports.
    - Providers that are a part of our plan's network are called **network providers**.
- **Network providers** are the providers that have contracted with us to provide services to members in our plan. The providers in our network generally bill us directly for care they give you. When you see a network provider, you usually pay nothing for covered services.
- A **Primary Care Provider** (PCP) is a main health provider in non-emergency situations who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time.
- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
    - **Oncologists** care for patients with cancer.
    - **Cardiologists** care for patients with heart conditions.
    - **Orthopedists** care for patients with certain bone, joint, or muscle conditions.
- You may need a **referral** to see a specialist or someone that is not your PCP. A **referral** means that our plan must give you approval before you can see the other provider. If you don't get a referral, <Virginia Premier CompleteCare> may not cover the service.
    - Referrals from our plan are not needed for:
        - Emergency care;
        - Urgently needed care;

        - Kidney dialysis services that you get at a Medicare-certified dialysis facility when you are outside the plan's service area; or
        - Services from a women's health specialist.
    - Additionally, if you are eligible to receive services from Indian health providers, you may see these providers without a referral. We must pay the Indian health provider for those services even if they are out of our plan's network.
    - More information on referrals is available in Chapter 3 of the Member Handbook.
- You also have access to a **care manager** that you choose.
    - A **Care Manager** helps you manage your medical providers and services.
    - Your **Care Team** is a group of people who will work with you. Everyone on the care team works together to make sure your care is coordinated. This means that they make sure tests and labs are done once and the results are shared with the appropriate providers. It also means that your PCP should know all medicines you take so that he or she can reduce any negative effects. Your PCP will always get your permission before sharing your medical information with other providers.

Choosing a Primary Care Provider (PCP)

You can get services from any provider who is in our network and accepting new members.

First, you will need to choose a Primary Care Provider. You may be able to have a specialist act as your PCP. Please call Member Services for help with this request.

To choose a PCP, go to the list of providers on page <10> and choose a provider:

- that you use now, ***or***
- who has been recommended by someone you trust, ***or***
- whose offices are easy for you to get to.

→ If you want help in choosing a PCP, please call Member Services at <1-855-338-6467>, <8:00 am to 8:00 pm, Monday to Friday>. The call is free. TTY/TDD: <1-800-828-1120/1-800-828-1140>. Or, visit <www.vapremier.com/completecare>.

→ If you have questions about whether we will pay for any medical service or care that you want or need, call Member Services and ask **before** you get the service or care.

Getting long-term services and supports

As a <Virginia Premier CompleteCare> member, you may be able to get long-term services and supports (LTSS), such as adult day health care, personal care services and respite care services. Long-term services and supports are help for people who need assistance to do everyday tasks like taking a bath, getting dressed, making food, and taking medicine. Most of these services are provided at your home or in your community but could be provided in a nursing home or hospital.

For more information about accessing LTSS, contact your care manager at <1-855-338-6467>, <8:00 am to 6:00 pm, Monday to Friday> TTY/TDD: <1-800-828-1120>/<1-800-828-1140>.

Identifying Providers in <Virginia Premier CompleteCare>'s Network

You must get all of your covered services from providers within our network. If you go to providers who are not in <Virginia Premier CompleteCare>'s network (without prior authorization or approval from us), you will have to pay the bill.

The exceptions to this rule are when you need urgent or emergency care or dialysis and cannot get to a provider in the plan, such as when you are away from home. You can also go outside the plan for other non-emergency services if <Virginia Premier CompleteCare> gives you permission first.

→ You may change providers within the network at any time. If you have been going to one provider, you do not have to keep going to that same one.

- If you are new to a Medicare-Medicaid Plan, you can see a PCP that is not in our network during the first 180 days.
- If you changed from another Commonwealth Coordinated Care Plan, you are able to keep your current providers (even if they are out-of-network providers) for 30 days after you sign up with Virginia Premier CompleteCare. Any preauthorized services that were provided by DMAS **or** Medicare **or** another Commonwealth Coordinated Care Plan will remain preauthorized for the rest of the prior authorization period **or** for 30 days from the date of your enrollment with us, whichever is sooner. Those living in a nursing facility when they signed up for Virginia Premier CompleteCare are the exception to this.
- Members who are pregnant may choose to stay with their obstetrical and gynecological service providers until six (6) weeks after giving birth. This includes providers that are not in the Contractor's Provider Network.

→ <Virginia Premier CompleteCare> works with all the providers in our network to accommodate the needs of people with disabilities. As applicable, the list of network providers in this Directory includes information about the accommodations they provide. If you need to see a provider and are not sure if they offer the accommodations you need, <Virginia Premier CompleteCare> can help you. Talk to your care manager for assistance.

Finding <Virginia Premier CompleteCare> providers in your area

Providers in this Directory are listed by provider type (PCPs, Specialists, etc.) and sorted by county. To find a provider in your area, you can search by first finding the provider type you are looking for (a complete list of network provider types and the total number of each provider type can be found below). Counties within each provider type are listed alphabetically. Look within your county to find a network provider in your area. Below is a key that explains what the abbreviations mean. You can also find this information on the inside the front cover of this directory:
