2015 Formulary (List of Covered Drugs)

Virginia Premier CompleteCare | 2015 List of Covered Drugs (Formulary)

This is a list of drugs that members can get in Virginia Premier CompleteCare (Medicare-Medicaid Plan).

- ❖ Virginia Premier CompleteCare is a health plan that contracts with both Medicare and the Virginia Department of Medical Assistance Services to provide benefits of both programs to enrollees.
- ❖ Benefits, List of Covered Drugs, and pharmacy and provider network, and/or copayments may change from time to time throughout the year and on January 1 of each year.
- ❖ You can always check Virginia Premier CompleteCare's up-to-date List of Covered Drugs online at www.vapremier.com/completecure.
- ❖ You can ask for this information in other formats, such as Braille or large print. Call 1-855-338-6467. The call is free.
- ❖ Limitations, copays, and restrictions may apply. For more information, call Virginia Premier CompleteCare Member Services or read the Virginia Premier CompleteCare Member Handbook.
- ❖ Copays for prescription drugs may vary based on the level of Extra Help you receive. Please contact the plan for more details.
- ❖ You can get this information for free in other languages. Call 1-855-338-6467. The call is free.

If you have questions, please call Virginia Premier CompleteCare at 1-855-338-6467, 8:00 am to 8:00 pm, Monday to Friday. The call is free. **For more information**, visit www.vapremier.com/completecure.

Frequently Asked Questions (FAQ)

Find answers here to questions you have about this List of Covered Drugs. You can read all of the FAQ to learn more, or look for a question and answer.

1. What prescription drugs are on the List of Covered Drugs? (We call the List of Covered Drugs the “Drug List” for short.)

The drugs on the List of Covered Drugs that starts on page 10 are the drugs covered by Virginia Premier CompleteCare. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

→ Virginia Premier CompleteCare will cover all medically necessary drugs on the Drug List if:

- your doctor or other prescriber says you need them to get better or stay healthy, **and**
- you fill the prescription at a Virginia Premier CompleteCare network pharmacy.

→ Virginia Premier CompleteCare may have additional steps to access certain drugs (see question #5 below).

You can also see an up-to-date list of drugs that we cover on our website at www.vapremier.com/completecure or call Member Services at 1-855-338-6467.

2. Does the Drug List ever change?

Yes. Virginia Premier CompleteCare may add or remove drugs on the Drug List during the year. Generally, the Drug List will only change if:

- a cheaper drug comes along that works as well as a drug on the Drug List now, **or**
- we learn that a drug is not safe.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval for a drug. (*Prior approval* is permission from Virginia Premier CompleteCare before you can get a drug.)
 - Add or change the amount of a drug you can get (called “quantity limits”).
 - Add or change step therapy restrictions on a drug. (*Step therapy* means you must try one drug before we will cover another drug.)
-

If you have questions, please call Virginia Premier CompleteCare at 1-855-338-6467, 8:00 am to 8:00 pm, Monday to Friday. The call is free. **For more information**, visit www.vapremier.com/completecure.

(For more information on these drug rules, see page 4.)

We will tell you when a drug you are taking is removed from the Drug List. We will also tell you when we change our rules for covering a drug. Questions 3, 4, and 7 below have more information on what happens when the Drug List changes.

→ You can always check Virginia Premier CompleteCare's up to date Drug List online at www.vapremier.com/completecure. You can also call Member Services to check the current Drug List at 1-855-338-6467.

3. What happens when a cheaper drug comes along that works as well as a drug on the Drug List now?

If you are taking a drug that is removed because a cheaper drug that works just as well comes along, we will tell you. We will tell you at least 60 days before we remove it from the Drug List **or** when you ask for a refill. Then you can get a 60-day supply of the drug before the change to the Drug List is made. You will receive a letter in the mail for this notification.

4. What happens when we find out a drug is not safe?

If the Food and Drug Administration (FDA) says a drug you are taking is not safe, we will take it off the Drug List right away. We will also send you a letter telling you that. If you receive this letter, you should contact the prescribing doctor to have your current drug replaced with an alternative.

5. Are there any restrictions or limits on drug coverage? Or are there any required actions to take in order to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you must do something before you can get the drug. For example:

- **Prior approval (or prior authorization):** For some drugs, you or your doctor or other prescriber must get approval from Virginia Premier CompleteCare before you fill your prescription. If you don't get approval, Virginia Premier CompleteCare may not cover the drug.
- **Quantity limits:** Sometimes Virginia Premier CompleteCare limits the amount of a drug you can get.

If you have questions, please call Virginia Premier CompleteCare at 1-855-338-6467, 8:00 am to 8:00 pm, Monday to Friday. The call is free. **For more information**, visit www.vapremier.com/completecure.

- **Step therapy:** Sometimes Virginia Premier CompleteCare requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables on pages 10 – 202. You can also get more information by visiting our web site at www.vapremier.com/completecure. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an “exception” from these limits. Please see question 11 for more information on exceptions.

→ If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List, or if you cannot easily get the drug you need, we can help. We will cover a 31-day emergency supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new Virginia Premier CompleteCare member. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to request an exception. Please see question 11 for more information about exceptions.

6. How will you know if the drug you want has limitations or if there are required actions to take to get the drug?

The List of Covered Drugs on page 10 has a column labeled “Necessary actions, restrictions, or limits on use.”

7. What happens if we change our rules on how we cover some drugs? For example, if we add prior authorization (approval), quantity limits, and/or step therapy restrictions on a drug.

We will tell you if we add prior approval, quantity limits, and/or step therapy restrictions on a drug. We will tell you at least 60 days before the restriction is added or when you next ask for a refill. Then, you can get a 60-day supply of the drug before the change to the Drug List is made. This gives you time to talk to your doctor or other prescriber about what to do next.

If you have questions, please call Virginia Premier CompleteCare at 1-855-338-6467, 8:00 am to 8:00 pm, Monday to Friday. The call is free. **For more information**, visit www.vapremier.com/completecure.

8. How can you find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically (if you know how to spell the drug), **or**
- You can search by medical condition.

To search **alphabetically**, go to the Alphabetical Listing section. You can find it in the Index that begins on page 203. All brand-name and generic drugs included in this document are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

To search **by medical condition**, find the section labeled “List of drugs by medical condition” on page 278. Then find your medical condition. For example, if you have a heart condition, you should look in that category. That is where you will find drugs that treat heart conditions.

9. What if the drug you want to take is not on the Drug List?

If you don’t see your drug on the Drug List, call Member Services at 1-855-338-6467 and ask about it. If you learn that Virginia Premier CompleteCare will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. He or she can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Please see question 11 for more information about exceptions.

10. What if you are a new Virginia Premier CompleteCare member and can’t find your drug on the Drug List or have a problem getting your drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of Virginia Premier CompleteCare. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to request an exception.

We will cover a 30-day supply of your drug if:

If you have questions, please call Virginia Premier CompleteCare at 1-855-338-6467, 8:00 am to 8:00 pm, Monday to Friday. The call is free. **For more information**, visit www.vapremier.com/completecure.

- you are taking a drug that is not on our Drug List, **or**
- health plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires prior approval by Virginia Premier CompleteCare, **or**
- you are taking a drug that is part of a step therapy restriction.

If you live in a nursing home or other long-term care facility, you may refill your prescription for as long as 98 days. You may refill the drug multiple times during the 90 days. This gives your prescriber time to change your drugs to ones on the Drug List or ask for an exception.

If you experience a level-of-care change, such as moving into or out of a hospital or long-term care facility, you will be allowed a 30 or 31 day refill (30 days in the retail setting and 31 days in the long-term care setting) if you are taking a drug on our Drug List. You can get an emergency transition refill if you are taking a drug that is not on our Drug List. A level of care change does not apply for short-term leaves of absences (such as holidays or vacations) from long-term care or hospital facilities.

11. Can you ask for an exception to cover your drug?

Yes. You can ask Virginia Premier CompleteCare to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, Virginia Premier CompleteCare may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior approval requirements.

12. How long does it take to get an exception?

First, we must receive a statement from your prescriber supporting your request for an exception. After we receive the statement, we will give you a decision on your exception request within 72 hours.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of receiving your prescriber's supporting statement.

If you have questions, please call Virginia Premier CompleteCare at 1-855-338-6467, 8:00 am to 8:00 pm, Monday to Friday. The call is free. **For more information**, visit www.vapremier.com/completecure.

13. How can you ask for an exception?

To ask for an exception, call Member Services. A Member Services representative will work with you and your provider to help you ask for an exception.

14. What are generic drugs?

Generic drugs are made up of the same ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

Virginia Premier CompleteCare covers both brand name drugs and generic drugs.

15. What are OTC drugs?

OTC stands for "over-the-counter". Virginia Premier CompleteCare covers some OTC drugs when they are written as prescriptions by your provider.

You can read the Virginia Premier CompleteCare Drug List to see what OTC drugs are covered.

16. Does Virginia Premier CompleteCare cover OTC non-drug products?

Virginia Premier CompleteCare covers some OTC non-drug products when they are written as prescriptions by your provider.

You can read the Virginia Premier CompleteCare Drug List to see what OTC non-drug products are covered.

17. What is your copay?

You can read the Virginia Premier CompleteCare Drug List to learn about the copay for each drug.

Virginia Premier CompleteCare members living in nursing homes or other long-term care facilities will have no copays. Some members getting long-term care in the community will also have no copays.

If you have questions, please call Virginia Premier CompleteCare at 1-855-338-6467, 8:00 am to 8:00 pm, Monday to Friday. The call is free. **For more information**, visit www.vapremier.com/completecure.

Copays are listed by tiers. Tiers are groups of drugs with the same copay.

- Tier 1 drugs are generic drugs. The copay will be from \$1.20 to \$2.65, depending on your level of Medicaid eligibility.
- Tier 2 drugs are brand name drugs. The copay will be from \$3.60 to \$6.60, depending on your level of Medicaid eligibility.
- Tier 3 drugs are Non-Medicare Rx/OTC drugs and the copay will be \$0.00.

List of Covered Drugs

The list of covered drugs that begins on the next page gives you information about the drugs covered by Virginia Premier CompleteCare. If you have trouble finding your drug in the list, turn to the Index that begins on page 203.

The first column of the chart lists the name of the drug. Brand name drugs are capitalized (e.g., AZASAN) and generic drugs are listed in lower-case italics (e.g., *azathioprine*).

The information in the necessary actions, restrictions, or limits on use column tells you if Virginia Premier CompleteCare has any rules for covering your drug.

Note: The * next to a drug means the drug is not a “Part D drug.” The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for these drugs. These drugs also have different rules for appeals. An *appeal* is a formal way of asking us to review a coverage decision and to change it if you think we made a mistake. For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or Medicaid. If you or your doctor disagrees with our decision, you can appeal. To ask for instructions on how to appeal, call Member Services at 1-855-338-6467. You can also read the Member Handbook to learn how to appeal a decision.
